

BHASKAR YOGI

FULL STACK DEVELOPER | MERN STACK DEVELOPER

Jaipur, Rajasthan, India • +91 9116978158 • shardayogi60@gmail.com
[LinkedIn](#) • [GitHub](#) • [LeetCode](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

BCA student and Full Stack Developer with hands-on experience engineering scalable web applications using the MERN stack (MongoDB, Express.js, React, Node.js). Proficient in building real-time communication systems, RESTful APIs, JWT authentication, third-party integrations (Stripe, Gemini AI), and cloud media storage. Strong foundational knowledge in Data Structures & Algorithms (DSA) with proven problem-solving activity. Top performer in college coding events, actively seeking Software Developer and Full Stack Internships.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), C, C++, HTML5, CSS3
Frontend:	React.js, Tailwind CSS, Bootstrap, DaisyUI, Zustand (State Management)
Backend & DB:	Node.js, Express.js, MongoDB, Mongoose, RESTful APIs
Tools & Services:	Git, GitHub, Socket.io, JWT, Stripe API, Cloudinary, ImageKit, Prism.js, Arcject, Resend API
Core Concepts:	Data Structures & Algorithms (DSA), Web Security, Async Programming, Deployment (Vercel, Render)

TECHNICAL PROJECTS

QuickGPT – AI-Powered Content & Image Platform

MERN STACK

GitHub: github.com/bs-bhaskar/QuickGPT • Live Demo: quick-gpt-xi-sable.vercel.app

- Engineered a production-ready MERN web application enabling multi-modal content generation via Google Gemini AI.
- Implemented secure user authentication with JWT, protected Express middleware routes, and Prism.js for code syntax highlighting.
- Integrated Stripe API to build a credit-based payment model controlling API usage tiers and automated credit top-ups.
- Leveraged ImageKit for optimized media storage, CDN delivery, dynamic transformations, and client-side rendering.

Chatify – Real-Time Web Messaging Application

MERN STACK

GitHub: github.com/bs-bhaskar/chatify • Live Demo: chatify-weio.onrender.com

- Architected a full-stack real-time chat application powered by Socket.io for instant bidirectional client-server messaging.
- Implemented HTTP-only cookie-based JWT authentication, global state management via Zustand, and security shielding using Arcject.
- Integrated Cloudinary API for image attachments and Resend API for transactional email verification workflows.
- Designed custom UI components using React.js, Tailwind CSS, and DaisyUI for responsive multi-device accessibility.

Text-to-Speech Converter

JAVASCRIPT / WEB API

GitHub: github.com/bs-bhaskar/text-to-voice-converter • Live Demo: text-to-voice-converter-tau.vercel.app

- Built an accessible browser utility that synthesizes text input into customizable speech audio using the native Web Speech API.
- Designed a responsive and minimal interface allowing real-time voice selection, pitch modification, and rate control.

EDUCATION

Bachelor of Computer Applications (BCA)

Mehta College of Institute of Technology (MCIT), Affiliated to Rajasthan University

2024 – 2027

Jaipur, India

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- College Top Performer:** Recognized as a top performer in official college coding and technical activities.
- Competitive Coding:** Active problem solver on LeetCode and HackerRank, consistently strengthening Data Structures and Algorithms (DSA) proficiency.
- Open Source & Continuous Learning:** Maintain an active GitHub profile with ongoing MERN stack projects, API integrations, and self-directed web development coursework.
